OUR REVOLUTION

REVECOL® by ERCA Textile Chemical Solutions

An 100% made in italy breakthrough innovation that upcycles critical waste material into a complete, safe, certified, market competitive high performing range of chemical auxiliaries for the whole textile industry and fibers.

REVECOL® by ERCA TCS: the missing piece to boost sustainability, circularity and performance throughout the fashion-making process, end to end certified and fully made in italy.

REVECOL® by ERCA Textile Chemical Solutions
Solutions Bringing Ṛevolutions

**LET'S MAKE
A DIFFERENCE!**

APPLICATIONS

ERCA Textile Chemical Solutions is able to offer the REVECOL® range of certified, performing, responsible and safe chemical auxiliaries to advanced dyers at all the different treatments and steps of the supply chain: from spinners, to garment makers through weavers and knitters in order to support brands and retailers.

No restrictions in terms of fiber kind nor of field of final application
REVECOL® by ERCA TCS is the perfect chemical auxiliaries' range for:

THE REVECOL® by ERCA Textile Chemical Solutions PRODUCT RANGE

Current REVECOL® by ERCA TCS product range is already quite a complete one able to cover textile pre-treatment, dyeing and finishing processes. Each one of these products carries the most important certifications: GRS, RCS, ZDHC Chemical Gateway, bluesign® and GOTS.

In addition, with the support and the analysis work done by bluesign® Academy, ERCA TCS is producing - where possible - the Product Carbon Footprint (PCF) of some REVECOL® by ERCA TCS products, certifying the concrete reduction of CO₂ emission.

CORPORATE CERTIFICATIONS

- With REVECOL®, ERCA Textile Chemical Solutions became the first chemical company to earn the Global Recycled Standard Certificate of Compliance in 2019
- UNI EN ISO 9001:2015
- UNI EN ISO 14001: 2015
- UNI EN ISO 45001:2018
- Global Recycled Standard (GRS)
- Recycled Content Standard (RCS)
- bluesign® System Partner
- Responsible Care®

IT'S GOOD TO HAVE OPTIONS.

AWARD

- In November 2022 REVECOL® by ERCA Textile Chemical Solutions won the European Responsible Care® Award by Federchimica, the Italian federation of the chemical industry
- It has been included in the BAT (Best Available Techniques) by the European Community
- In November 2023 ERCA TCS won the European Responsible Care® Award by the European Chemical Industry - CEFIC - in the category of Small and Medium - sized enterprises thanks to the REVECOL® range that is clearly showing and paving the way in the new generation of chemical auxiliaries with a strong focus on sustainability and carbon neutrality as confirmed by bluesign® ACADEMY analysis. See all the projects in the gallery at www.cefic.org

WHY CHOOSE US

UNIQUENESSES

- 100 % Made in Italy production
- Certified sustainable DNA
- Circular inspired
- Upcycling sourcing choice
- End to end certification
- Safety
- High performance
- Market competitiveness
- Applicability on every kind of fiber, both virgin and recycled

COMMUNICATION

ERCA Textile Chemical Solutions will support REVECOL® range and its partners with a dedicated plan that include press office, social media, website, pr activities together with dedicated events and fair at international level.

On top of that ERCA TCS has created dedicated brochures – technical and marketing orientated – but also special education and training session in order to share information to activate key values of REVECOL® by ERCA TCS circular inspired solution. REVECOL® by ERCA TCS is a milestone able to accelerate responsibility in fashion and ERCA TCS with its partners will be in the front row to spread this new high performing solution in order to ACTIVATE a REVOLUTION able to support fashion system change!

Stay tuned with REVECOL® by ERCA Textile Chemical Solutions:
